RELEVANT PROJECTS

Mama's Little Bakery Management System Jan 2026 – May 2026
Team database project | SQL, MySQL, AWS RDS, ERD, 3NF

- Translated bakery requirements into 48 bidirectional business rules for a 41 entity relational model.
- Collaborated on ERD design, 3NF normalization, and MySQL implementation with primary and foreign keys.
- Analyzed sales, inventory, supplier expense, and waste through 15 SQL queries; orally defended query logic and findings.

Emily Bakes Cakes Order Management System Aug 2025 – Nov 2025
Lead UI and Prototype Developer | HTML, CSS, JavaScript, Chart.js, Figma

- Led UI and prototype development for a nine person team building a deployed bakery web application.
- Translated requirements and Figma wireframes into a customer ordering site and five staff dashboards.
- Centralized order and customer workflows in a prototype addressing manual records and lost orders.

WORK EXPERIENCE

SAP FICO Functional Analyst Intern (Part-time) Mar 2024 – Mar 2025
Accellux Solutions | IT Services & Agile Delivery Firm | Greater Houston, TX

- Worked through supervised SAP S/4HANA Finance (FI/CO) practice scenarios using team-supplied requirements; reviewed transaction behavior against expected business rules.
- Maintained spreadsheets and documented system activities, process steps, and observations.
- Participated in Agile team activities and observed consultant coordination of requirements and project work.

Front Desk Attendant Jun 2024 – Dec 2024
IHG Hotels & Resorts | Houston, TX

- Managed 50+ daily check-ins using IHG Merlin, OPERA PMS, and Holidex.
- Maintained reservation and billing accuracy across integrated systems with 95%+ post-stay guest satisfaction.
- Helped implement a front desk workflow change that reduced guest wait times by 15%.

Night Auditor Mar 2024 – May 2024
Home2 Suites by Hilton | Katy, TX

- Reconciled $20K+ in nightly financial transactions using Hilton OnQ and OPERA PMS.
- Identified and corrected posting variances, improving end of day reporting accuracy by 10%.
- Provided after-hours front-office system troubleshooting and accurate handoffs to morning staff.
